

FormanWatkins Attorneys Attend DRI 2020 Women in the Law Seminar

FormanWatkins attorneys Chelsea Favret, Elizabeth Penn, and McCann LeFevre participated in the three-day DRI 2020 Women in the Law Seminar in Scottsdale, Arizona, during January. The program gathered outstanding women from law firms and corporate legal departments around the United States. Attendees received instruction in communication and negotiation skills through interactive workshops and attended small-group networking events. Other highlights included panel discussions on how to build business by “getting uncomfortable” and how to bridge the generational gap in communication. The FormanWatkins Women’s Initiative proudly supports events such as the DRI WITL Seminar, which foster the advancement of women in law.
