After three years of anti-poverty work in the Mississippi Delta (where he is originally from) after college, Julian D. Miller decided to attend law school in order to use the law to serve his purpose and passion for public service and be a top notch litigator. Today, Julian keeps his grand purpose of making others' lives better in mind, as he helps clients navigate their cases with precision and compassion. Julian knows that clients come to him in a crisis they hoped to avoid, and he makes it a priority to approach that crisis with the same urgency as the client desires to get it resolved. Clients can always expect Julian to be honest and motivated, as he believes his work as a lawyer has the potential to create systemic impact and progressive policy change. In addition to having met Magic Johnson and grazed hands with Beyoncé, Julian Miller is unique in that he is the only lawyer in the state of Mississippi to have successfully represented the MS Department of Education, school districts, a charter school, teachers, administrators, and several public school students in school disciplinary and special education matters. Additionally, he has successfully litigated several multi-million-dollar cases at the administrative, trial, and appellate levels in complex governmental litigation, administrative, commercial litigation, products liability, and labor and employment matters in state and federal courts. Clients can be sure they are in good hands, as Julian is a multi-disciplined attorney with a vast repertoire of experience and a heart that cares deeply for every person that walks through his door.

Education

- University of Mississippi School of Law, J.D., *cum laude*
