Competitive and driven, Sharon offers clients a relentless work ethic, in even the most difficult litigation. Having a B.S. in Chemistry and having worked at the National Science Foundation in Washington D.C., Sharon is a vastly knowledgeable lawyer driven to succeed for herself, her family, and especially for her clients. She does not hesitate to work long hours and stay in constant communication with her clients using her attention to detail and other skills to create the best possible solutions for the most intricate problems. With Sharon, clients can expect excellent work from a personable, relatable attorney who desires to be the best possible advocate for her clients and her family.
