Fax: 504-799-4384

Trey believes that being a lawyer is one of the few jobs where problem solving and critical thinking meet customer service. As a naturally gifted problem solver and critical thinker, and having a highly successful customer service background, Trey brings his clients a sense of security and genuineness during their case. He also enjoys working diligently to personally get to know his clients and set goals together as a team. Having been the recipient of the sacrificial and selfless help of a loving family, Trey makes it his mission to pay it forward by being a compassionate and fierce advocate for his clients. Always looking at the big picture, Trey maintains a level head and a persevering attitude through every unique case that comes across his desk. A lover of comedies, basketball, and a talented singer, Trey brings well-rounded, genuine, and creative representation to his clients. There is nothing Trey would rather be than a lawyer at the service of the people, so clients can always rest assured that with his representation, their case and their business will be well taken care of.
